

A nighttime photograph of Bern, Switzerland. The Zytglogger tower, a prominent clock tower with a spire, is illuminated from below, casting a warm glow. The surrounding city is built on a hillside, with numerous houses and buildings, some of which have their lights on. A river flows through the city, and a stone bridge with two arches spans across it. The sky is a deep blue with some clouds, and the overall atmosphere is serene and picturesque.

**Participate in the 7th Post-EAU Symposium
Program**

May, 2023 | Bern

Dear Residents,

We kindly invite you to sign up for our **7th Post-EAU Symposium educational program** to support young urologists and be given the opportunity to travel to the **2023 EAU Congress in Milan, Italy** alongside our dedicated mentors Dr. Tobias Gross, Dr. Dominik Abt and Dr. Ilaria Lucca.

At this international congress in Italy's fashion capital you will be exposed to the latest updates in urology and will be given the task to present the most important highlights and data at our **Post EAU Symposium 2023 in Bern** after the Congress.

Not only is this an excellent opportunity to extend your personal network internationally as well as locally but also by sharpening your skills at the **Presentation Skill Workshop** we ensure that you feel at ease presenting the data.

Don't miss out on this unique opportunity, we are looking forward to your registration. Scan here:
